GORHAM, MAINE

U-PICK APPLES

PRISTINE ●●●●

Beautiful yellow apple to delight you in August. Pristine's crisp, juicy flesh and great flavor kick off our apple season with a better early apple.

SEASON: August

HONEYCRISP ●●●●

Explosively crisp, cream colored flesh. This Minnesota apple was bred for the north and develops its true color and flavor in our Maine climate.

SEASON: August – September

SWEET 16 ●●●●

Sweet 16 is crisp and juicy with an exotic yellow flesh and a sweet, rich and unusual flavor that combines hints of sugar cane, vanilla, and spicy cherry flavors.

SEASON: Mid-September

SNOWSWEET ●●

This gorgeous apple has tender white flesh with a subtly complex flavor of tangy apple spice with just the right amount of sweet. Its snowy white flesh also resists browning, making SnowSweet a good choice for salads, picnics, lunch boxes and garnishes of freshly cut apples.

SEASON: Late Sept – Early Oct

ENTERPRISE ●●●●

Large and attractive, the skin looks like a ruby red cosmos filled with yellow stars. Inside: crisp, cream flesh with a satisfying balance of flavor, sugar and tanginess. When cooked, slices hold their shape and their fine flavor. Large, easy to peel, and one of our best for storage.

SEASON: Late Sept – Late Oct

NOVASPY ●●●●

With rich and well balanced sweet-tart flavor, Novaspy is flavorful and juicy, and is good for eating fresh. But Novaspy really shines as a long storing baking apple in the tradition of its famous parent, Northern Spy.

SEASON: October

FROSTBITE ●

Frostbite is small and juicy, remarkably aromatic and intensely flavored, with hints of tropical sugarcane and molasses. Frostbite's descendants include Sweet 16 and Honeycrisp.

SEASON: October

CRIMSON GOLD ●●●●

Crimson Gold has lovely, juicy golden flesh and a perfect balance of sweet and tangy flavor. We proudly offer Crimson Gold as a true autumn treasure. Crimson Gold is one of our featured winter apples!

SEASON: October

CRIMSON TOPAZ ●

Crimson Topaz is extra tart like Granny Smith, but even better because it is also packed with juicy flavor. You can have it all. Limited quantities.

SEASON: October

ANTONOVKA KAMENICHKA ●●

Yellow, tart cooking apple from Russia and Eastern Europe, and popular there for the tree's cold hardiness and the fruit's cooking and preservation qualities.

SEASON: Late September

ANTON POLT ●

(ANTONOVKA POLUTORAFUNTOVAYA)

An old-fashioned huge cooking apple from Russia, with green tinted, almost ivory skin. Crisp, juicy, refreshing white flesh.

SEASON: October

GOLDEN RUSSET ●●●●

An antique classic russet apple with grainy crisp white flesh and an ambrosial flavor. Sought after for its juice and as an accompaniment for aged cheeses. Perhaps the most famous and most prized russet.

SEASON: October

GOLDRUSH ●●●●

Goldrush boasts classic Golden Delicious flavor, sweet and tangy are cranked way up to awaken your tastebuds! Goldrush earns rave reviews for both fresh eating and baking, and it is one of the longest storing apples anywhere. This Goldrush will make you feel like you struck gold.
